No	Anything you would like to see changed?	
Comments:		

Personnel Issues/Concerns		
No	ECO	
Comments:		
Very Supportive		
	RPSC	
Comments:		
Very Supportive		

Other Issues

Yes Diving, Zodiac, E-mail support, interaction with stations, etc.?

Comments:

Palmer Station was very supportive. There was some confusion about the availibility of excess email. Excess email bandwith was requested and was provided, however, it was not understood that there is still a cap on the size of each indivual email. We were at Palmer Station so the grantees sent files from station instead of following up on the issue with the ETs. We may need to be more clear about how this works in the RSP.
