

A QUICK GUIDE TO COMMON QUESTIONS

Just how cold is it?

Go to page iv

Are there ATM machines in Antarctica?

Go to page 23

Do I need to bring special adapters for electrical currents?

Go to page 29

What is my mailing address in Antarctica?

Go to pages 69-78

Is there e-mail and Internet access in Antarctica?

Go to page 63, *plus:*

For McMurdo Station, go to page 69

For South Pole Station, go to page 73

For Palmer Station, go to page 76

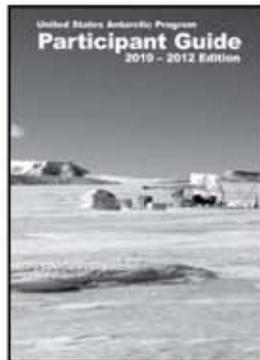

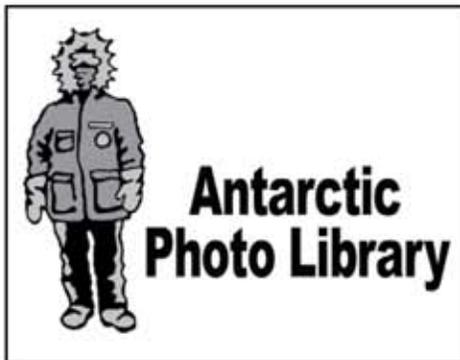

For research vessels, go to page 79

What kind of clothes should I pack?

Go to page 28

What products are available in the station store?

Go to page 31

All available online at www.usap.gov

Edited by Elaine Hood and Peter Rejcek, May 2010. The front and back cover photo by Mike Waszkiewicz shows members of Dr. Andrei Kurbatov's research team approaching their field camp. Illustrations by Matt Davidson. All photos are available in the Antarctic Photo Library at www.usap.gov.

The **National Science Foundation** (NSF) funds research and education in most fields of science and engineering. Awardees are wholly responsible for conducting their project activities and preparing the results for publication. The Foundation does not assume responsibility for such findings or their interpretation.

NSF welcomes proposals from all qualified scientists, engineers and educators. The Foundation strongly encourages women, minorities and persons with disabilities to compete fully in its programs. In accordance with federal statutes, regulations and NSF policies, no person on grounds of race, color, age, sex, national origin or disability shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving financial assistance from NSF, although some programs may have special requirements that limit eligibility.

Facilitation Awards for Scientists and Engineers with Disabilities (FASED) provide funding for special assistance or equipment to enable persons with disabilities (investigators and other staff, including student research assistants) to work on NSF-supported projects. See the GPG Chapter II, Section D.2 for instructions regarding preparation of these types of proposals.

The National Science Foundation promotes and advances scientific progress in the United States by competitively awarding grants and cooperative agreements for research and education in the sciences, mathematics and engineering.

To get the latest information about program deadlines, to download copies of NSF publications, and to access abstracts of awards, visit the NSF Web site at **www.nsf.gov**.
