| <input checked="" type="checkbox"/> | <input type="checkbox"/> | If returning for another cruise, are there any additional equipment or support needs your group anticipates? | A spare magnetometer. According to the manufacturer (Ls Coste-Romberg) the life expectancy of the gyros is 5 years, and the ones on board have been in for 4 years. Apparently they can no longer repair or replace these gyros. This is a big problem because there is now no spare on board, and the pitch-gyro has only one more year of expected life -- in fact it could fail at any moment. This would render the gravimeter useless. The gravimeter needs to be serviced or replaced. |
