

BUSINESS CLASS UPGRADE TO/FROM SYDNEY

If you have an American Airlines AAdvantage account with at least 50,000 miles and are flying AA/QANTAS from the U.S., you can redeem those miles and upgrade to Business Class on your trans-Pacific flight to/from Sydney.

Eligibility:

- You must have at least 50,000 miles in your AAdvantage account and be able to submit proof.
- You must be traveling on USAP business to/from Christchurch.
- Your ticket must be purchased by ASC Travel.
- You must be flying AA/QANTAS.

Please provide the following information and email your request to ASC Travel.

AAdvantage Number	
Available Miles*	
Name (as ticketed)	
Flight Date (trans-Pacific leg)	
Flight Number (trans-Pacific leg)	
Reservation Code	
Airline Confirmation (trans-Pacific leg)	

**Provide proof, such as a printout of your AAdvantage balance*

Upgrades are optional. Please submit your request as early as possible. **Upgrades are one-way and subject to airline availability. You will not know if your upgrade is successful until you board the aircraft.** Your AAdvantage account will not be debited until after departure.

If you are flying other airlines or to other destinations such as Punta Arenas, you may upgrade directly with the airline. Be aware, however, that ASC may lose control of the ticket and you risk having no further travel support from ASC or Travelocity. It may be wisest to upgrade at check-in.
