

## RV LAURENCE M. GOULD Operating Schedule As Of December 9, 2021

General Information: Maximum cabin berthing is 27 including ASC staff. In addition, two berthing vans will be available to provide additional passenger space as needed. These will increase the berthing limit on transits to Palmer Station to a total of 37. Grantees should plan to board the ship the night before the scheduled departure date, and to depart the ship the day the ship returns to port. Port calls generally require four days but can vary to meet mission-critical requirements. Ship schedules are subject to change. Opportunities exist on oceanic transits for collection of underway scientific measurements as well. Information about the ship's specifications, onboard safety, vessel policies/procedures available at: [Vessel Science & Operations](#)  
POC for questions or comments: [Brad Fabling, Research Vessel Manager](#)

### Arrival/Departure Key

PUQ= Punta Arenas, Chile  
PAL= Palmer Station, Antarctica

TAL=Talcahuano, Chile
