

RV LAURENCE M. GOULD Operating Schedule July 6, 2017

General Information: Maximum cabin berthing is 28 including ASC staff. In addition, two berthing vans will be available to provide additional passenger space as needed. These will increase the berthing limit on transits to Palmer Station to a total of 37. Grantees should plan to board the ship the night before the scheduled departure date, and to depart the ship the day the ship returns to port. Port calls generally require four days but can vary to meet mission-critical requirements. Ship schedules are subject to change. Opportunities exist on oceanic transits for collection of underway scientific measurements as well. Information about the ship's specifications, onboard safety, vessel policies/procedures available at: [Vessel Science & Operations](#)
POC for questions or comments: [Ethan Norris, Marine Area Manager](#)

Arrival/Departure Key

Antarctic research solicitation (2012-2022): [Antarctic Solicitation](#) describes the science programs supported as USAP and how to prepare a proposal. Additional information about the USAP is available on NSF's web site at the U.S. Antarctic Program portal at: <http://www.usap.gov>

UNOLS ship request procedures for NBP and LMG: [UNOLS Ship Time Request \(STR\)](#) Submit the form as a supplemental document with new proposals. To navigate the site: 1) Create a new member account if it is first time visiting the site. 2) Click on Principal Investigator tab, detailed instructions can be found at the "How do I create a Ship Time Request". 3) Click a project and request the LMG or NBP.
